Christmas Committee Gets Early Start

The Downtown Merchants Association Christmas Committee (believe it or not!) met last Thursday, obviously in an early attempt to plan this year's Holiday Celebration that will be bigger and better than last year's local festival.

Anticipating full cooperation from the business community and local citizens, the committee discussed a number of items that may well be considered in this year's fest. Chairman Ernie Dawson chaired the session, the first of many that will be designed to spark a campaign naming Grayling as "Christmas City, U.S.A."

A number of possible activities were discussed and a late April or early May meeting is being considered to discuss further activities for inclusion in this year's Grayling Christmas Program.

Swamp Tax at \$1.50 an Acre

Two Northern Michigan Republicans said today that their districts will reap great benefits from the additional \$3.2 million swamp tax allotment included in a supplemental appropriations bill which passed the House Wednesday.

State Rep. Charles Varnum (R-Manistiquette) and Ralph Ostling (R-Roscommon) both said they are "proud to have been a part" of raising the swamp tax from 58 cents an acre to \$1.50 an acre last term and said residents in their districts will gain bene-

fits from the increase in the 1979-80 fiscal year. The additional which was based on the 58 cents an acre level.

"The people of Northern Michigan will receive a lot more of the money due them from the state next fiscal year than they have in the past," Varnum said. "I'm proud to say that Ralph Ostling and I helped to bring that money up here."

Through legislation passed last term, the money the state pays local units of government for tax-reverted land was raised from 58

cents an acre to \$1.50 an acre. Nearly all of Michigan's 3.5 million acres of tax-reverted land is located in Northern Michigan.

"Counties and townships will each receive 40 percent of the swamp tax monies and schools will receive 20 percent," Ostling explained. "Overall, I believe the new level can only increase the quality of life in the northern part of the state."

Varnum said he will push this term for a longer portion of swamp tax money to be allocated for schools.

COOR Program Raises \$3,000

The COOR-Area Special Olympics program received a big financial boost this winter. With most of the contributions having been received, it appears that the "weigh in" which was held in late January and early Feb. will have raised slightly over \$3,000.

The program, which was conducted by a variety of service clubs in various stores throughout the area, sought donations of a penny-a-pound from area residents. Donations by area was as follows: Roscommon 317.00, Houghton Lake 686.00, Higgins Lake 172.00, St. Helen 488.00, West Branch 798.00, Rose City 50.00, Grayling 175.00, Curran 100.00, and Fairview 265.00.

The money raised from this event will be used to support athletic programs for the areas mentally handicapped residents. One such event was recently held at Schuss Mt.-Shanty Creek ski areas. This was the Great Lakes Regional Winter Special Olympics. Seventeen COOR area athletes spent three days and two nights

MERCY HOSPITAL RECEIVES NEW EQUIPMENT—Dr. Modesto A. Lorenzo, Chief Radiologist at Mercy Hospital looks on while Toni Tholl, Ultrasound Technician (left) uses the Ultrasound scanning sensor on a "patient", Marlene Gatesy, an employee in the Radiology Department. (Photo by Joe Schrader)

Ultra Sound Introduced at Mercy Hospital

[by Jack Witter]

With the recent arrival of the new Ultrasound System at Mercy Hospital, Grayling, dreams related to the expansion and renovates program are quickly becoming realities.

Dr. Modesto A. Lorenzo, Mercy Hospital's Radiologist, in speaking of the new equipment state, "It became increasingly necessary that we should have immediate delivery of the Ultrasound System, as the growing demands for it outweighed any reason for delay."

"Ultrasound is a form of Diagnostic scanning using high frequency sound

waves," said Dr. Lorenzo. "There are no known biological effects caused by its use. This, therefore, enables it to be used for many fetal examinations. It is harmless to the mother and child. The age of the fetus, along with the number present, are able to be determined through the use of this system," he stated.

Dr. Lorenzo went on to say, "Diagnostic Ultrasound may also be used in the diagnosis of abdominal disorders such as masses, aortic aneurysm, pancreatitis, gallstones, etc. The Ultrasound scan allows the physician to be most definite

in his decision-making." The equipment was installed at Mercy Hospital on Valentines Day, as a part of the expansion endeavor, and is estimated to cost in the neighborhood of \$63,000.00. While the equipment has far reaching medical diagnostic capabilities, bones, body air-pockets, and fat areas will not respond to the machines capability.

Dr. Lorenzo stated that a body organ or mass can be traced by the machine instantaneously and transmitted to a miniature TV screen. That can be viewed by a diagnosing physician, as well as negatives which are automatically produced by the machine.

While the equipment will not completely replace the X-ray, it is a quick and invaluable tool for doctors to use in their diagnosis.

In summation of his remarks, Dr. Lorenzo said, "The physicians at Mercy Hospital have quickly realized the great value of the Ultrasound Unit for its accuracy in diagnosing their patients without exposing them to radiation."

The recent installation of the ultrasound system represent only a small fraction of the improvements planned in medical service at Mercy Hospital. In addition, a Mamography System will be added as part of the expansion and renovation program.

NOTICE OF PUBLIC HEARING

Notice is hereby given that a public hearing will be held by the Crawford County Board of Commissioners at the County Building at 2:00 p.m. on April 10, 1979, to afford an opportunity for interested persons to be heard with respect to consideration of a request for financial assistance for Crawford County Public Transit (Dial-A-Ride), said financial assistance to be sought from the Urban Mass Transportation Administration, pursuant to the Urban Mass Transportation Act of 1964, as amended.

Crawford County Public Transit is a county-wide, five-day-per-week bus service operation. With only three buses and a very limited budget, and taking into consideration the area that must be covered, the steadily-increasing county population, and the increasing public demand for the service, it has been difficult to give the type of county-wide service needed. The additional funding being applied for will make possible the expansion of these services.

Crawford County Public Transit is for the use of all County residents, and takes into consideration the special needs of the elderly and physically handicapped persons, one bus being equipped with a special lift for wheelchairs.

This project will displace no persons, families, or businesses; it will have no significant environmental impact upon the area; and it is now under review by the A-95 Clearinghouse and 204 Review Agency.

A copy of the application for a Federal grant for this proposed project, together with an environmental analysis and the transit development plan for the area, is available for public inspection at the Crawford County Building.

His military awards and decorations include the bronze star, meritorious service medal, air medal and air force commendation medal. Sweet Adelines Activities

Sunday afternoon a tired, but happy, bunch of Sweet Adelines rolled into town on their chartered bus. It was a fun weekend and in competition we felt we had sang well. While scoring in the middle of the pack, top of the small choruses and just below the large choruses we feel we improved and the audience enjoyed our routines. First place honors went to the London Chapter, who were champs the minute the curtain opened. What fun it would be to have that many voices on stage.

Wed. found the chorus digging into the music for our show, scheduled for June 15 and 16. We now must put competition behind us for this year and start concentrating on the show and singouts.

We were happy to have Nora Weidemeyer visit us Wednesday and hope she will return.

The next two weeks our weekly rehearsal will be held at the Houghton Lake High School Choral Room, due to the fact the Roscommon High Music Dept. will need the school facilities to prepare for their upcoming musical. We wish them a huge success!!!

ARROWHEAD INN—New owners Jim & Tanya Mudge have been welcoming residents and visitors to dine with them since they assumed ownership of the restaurant early in January. The Mudge family decided to move here from St. Clair Shores for a number of reasons but most of all "because we wanted an opportunity to work and live in Northern Michigan," Tanya commented.

The Mudge family resides on Jones Lake Road in AuSable Woods and have a 21-month old son, Jimmy, who is also enjoying his move up north. (Joe Schrader photo)

From Our Corner ...

Wanted...nice home for young black and white kitten...any one interested may call 348-6811 to make arrangements.

New owners need only a warm basement...and a deodorizer...just in case the pet gets scared or excited.

What started out as a funny last Wednesday afternoon in the ally behind ye ol' Avalanche our crew was watching the kitten wander about seeking food...while making a big joke of it...

Our friend must not have liked to be made fun of she left her calling card sometime during the night...had it not been for a nice day Thursday, no work would have been done, all doors and windows were left open most of the day just so our crew could breathe while going through the motions of working...

We thought following Thursday our visit from the friendly kitten was over and she had taken off for her natural habitat...not so, she again appeared Monday afternoon, again taking her stroll as she had done last Wednesday...we hate to think right now what may be in store for us in the morning.

We called the DNR today...their answer...got to live with the little raskels, they're all over...

How about that for starting a skunky column...

Tonight we are again back into the old mold of not having anything real concrete that we would like to pass on to our reader, so it looks like it will wind up as just another one of those hit and miss endeavors that we are notorious for.

We can't explain our weather over the weekend...last we heard it was suppose to be just a nice soft snow fall to cover up the old grimy left overs of the winter of '79...we mentioned last week it wouldn't last, but dang it all, the temperature is going to have to climb, and climb rapidly from the last couple days or we're going to lose a few readers who have become believers of the fella...besides...no way do we appreciate putting on our muck-a-lucks again.

No one called after last week's corner...so all we can imagine is that our readers realish in hearing about us eating crow...we did run into one of our readers last week while our bride and I were out for dinner...our reader mentioned she looked forward to our corner every week...and then asked why we didn't write something constructive...we had a hard time explaining, we really didn't know anything constructive to write about...she said that's all right, we just like to have you fill your corner because we enjoy it...how about that for public relations, and it wasn't even our sister...but, we're going to find out the lady's name who lives out at Bear Lake...thanks...

By the mail we are receiving of late our summer friends are beginning to make the motion to move back to god's country...and not too far behind our robins...we have had at least four reports of people having robins in their yards...it's just gotta be spring...

As we sit here tonight, all we can thing about is hurry up and come up with something...the Michigan State and Indiana State champ game for NCAA trophy comes on in just 30 minutes, and here we are not even close to filling our portion of the Avalanche...anyway we are going to call it quits tonight...if nothing happens during the night to add to this skunky column...

...have a nice weekend...we're planning on being in T.C.

An alarm of fire Monday caused a little excitement, but no particular damage, except the scare on account of a high wind blowing toward the business part of the village, sparks from the chimney set fire to the roof of Victor Sorenson's house south of the new Russell hotel, but it was extinguished without the aid of the department.

The Bible Speaks

From Calvary Baptist Church

Baptist Church Membership

Calvary Baptist Church of Grayling is a band of bornagain, baptized sinners united on one foundation, God's Word, led by the Spirit of God and seeking to glorify the Son of God as members of His body. We form a church or "ekklesia" which means a called out assembly. We believe God has formed us to fulfill the privileges and duties of a local New Testament Church.

Our church has two requirements for membership. You must be born-again and be baptized by immersion as a believer. Both of these requirements point back to the time of your salvation. You entered the family of God by new birth and you entered the body of Christ by Spirit baptism, I Cor 12:13. Therefore, you must give testimony of your new birth in Christ to enter church membership. You must also be willing to follow the first command of Jesus Christ for every disciple and be baptized in water, to be identified with the local body of believers.

A local church is compared to a body in Cor 12:13-31, and we are reminded that different members have different jobs and different abilities. In a normal body we know the ears are for hearing, the eyes are for seeing, the nose is for smelling and so on. In a local church body we have workers who have different responsibilities.

In a normal body you have old body cells and new body cells. In a local church you find old

mature Christians and young babes in Christ. All are an equal part of the body. You may know members of our church who live clean, moral and very respectable lives. You may know others who have sin problems which you do not expect to find in a church. Our standard is the Bible, not a legalistic set of human rules. We believe the Holy Spirit should be given opportunity to mold and shape Christian lives.

How do we answer the charge often brought against any church that we have hypocrites in our membership? We simply, ask who doesn't? Jesus picked a dozen men and therein was Judas. Even Peter, often thought of as the leader of the twelve, in a moment of weakness denied Christ three times. The person who avoids churches because of hypocrisy will some day wake up in Hell with the rest of the hypocrites. I would a lot rather face Jesus Christ in judgment as a hypocrite who half way tried, than to be the man who hid behind the hypocrite and wasted his life doing nothing for God. Don't cop-out on hypocrisy. Come and share with us the joy of being a band of sinners saved by God's Grace, and called to be saints. (adv.)

Lottery To Change Drawing

The Michigan Lottery announced today that it is switching from a 'Michigan Million Dollar Drawing', which occurs about every nine months, to 12 monthly Jackpot Drawings. According to Lottery Commissioner Gus Harrison these new monthly drawings will include ticket holders who match the winning 3-digit weekly "Michigan" number on or after April 5, 1979. Upon filing a claim, these players will win \$50 and automatically be entered into the Monthly Jackpot Drawing.

Players who match the 3-digit winning "Michigan" number through March 29, 1979, and file a claim within one year, will be entered into the final "Michigan" Million Dollar Elimination Drawing (number 38), which is scheduled for early next year.

On the second Thursday of each month (starting with May 10, 1979), 20 Monthly Jackpot winners will be drawn at random to share the Jackpot. The Grand Prize will be 50% of the Jackpot. Second prize is 10%, third prize is 6%, and the remaining seventeen winners each receive 2% of the Jackpot. The exact size of the Jackpot is determined by "Michigan" ticket sales, with a guaranteed minimum of \$10,000 a week to be added to the Jackpot. "Michigan" players can still win \$5 by matching the winning two-digit weekly number if both the two-digit and the three-digit winning numbers are matched, the ticket holder can win \$2,000 to as much as \$70,000 in the weekly "Super Play" drawing. Subscribers to the Michigan Club will automatically be eligible to win under the new prize structure.

A GIGANTIC MAPLE TREE located behind Grayling's Post Office was removed by Consumers Power employees last week while postal employees looked on sadly. The tree, which has been slowly dying over the years, grew to the size shown in this picture, from a 12" maple back in 1937 when the Post Office was built. "I just hated to see it go," is all Postmaster Jim Baker could say after the tree was removed. (Joe Schrader photo)

TIME IS RUNNING OUT for Michigan motorists who haven't purchased 1979 license plates for passenger cars and motorcycles. Automobile Club of Michigan employee Barb Kisch reminds motorists that the new black and white plates must be displayed by April 3. Plates are available at Department of State and 51 Auto Club offices. To obtain license plates, motorists must present either the prepared renewal form mailed by the Department of State, the 1978 vehicle registration or the certificate of vehicle title plus proof of public liability and property damage insurance.

Local Doctor Named Diplomat of ABFP

Kansas City, Mo.—Dr. Paul Dosch, Grayling, Mi. has been named a diplomate of the American Board of Family Practice (ABFP) as a result of passing a certification examination offered by the ABFP. He is now certified in the medical specialty of family practice.

The intensive 2-day written examination is designed to prove the candidate's ability in the areas of internal medicine, surgery, obstetrics, gynecology, pediatrics, psychiatry and community medicine.

To qualify for the examination a physician must have completed either a 3-year family practice residency or have been in family practice a minimum of six years and successfully completed 300 hours of continuing medical education approved by the American Academy of Family Physicians.

ABFP diplomates also must continue to show proof of competence in the field of comprehensive, continuing care of the family by being recertified every six years. No other medical specialty requires diplomates to prove competence on a continuing basis.

The latest group of diplomates brings the total number to more than 19,000. Most are members of the Academy of Family Physicians, the national association of family doctors. The Academy was the first national M.D. group to require members to take continuing medical study, and was chiefly responsible for securing specialty status for family practice. This year is the tenth anniversary of the specialty.

Use Caution Flying Kites

Cadillac—Every year, says W. C. Allen, Consumers Power Company's district manager, youngsters look for ward to kite flying time. Now that the season is here, a few timely tips to the youngsters may be necessary.

Allen urged parents and school officials to warn children of the dangers of flying kites near electric lines. Major problems usually occur when a kite is tangled in electric wires and the young person attempts to free it, Allen said.

Allen offered some basic rules for safe kite flying. Having your children learn them could help avoid trouble, he noted.

1. Use dry string-not wire or anything metallic.
2. Use wood and paper or plastic in your kite-not wire or metal.
3. Fly your kite on days when there is no rain.
4. Avoid busy streets and highways while flying your kite.
5. Don't fly your kite near television or radio antennas.
6. Keep away from any electric wires.
7. If your kite does get snagged in a power line, don't try to pull on the string or climb the utility pole. It's better to lose a kite than to lose your life.
8. If you see a kite tangled in electric lines, call Consumers Power and let them know the location.

Decorating Den Makes House Calls

Decorating Den, a mobile interior decorating service, is not only new to our area but to Michigan. With over 200 franchises now operating throughout the States, it is the only nationally advertised home decorating service in America and Canada today.

Owner of this chic little shop on wheels is Bobbe Morley of Higgins Lake. She travels in a brightly colored van which contains over 3,000 samples of drapery, carpet and wallcovering, enabling customers to choose from over one million combinations right in their own home.

Bobbe says the idea of Decorating Den is to bring the services of a trained decorator to the average homeowner and help them decorate around their existing furniture and their lifestyle. Bringing samples to the home enables husband and wife to shop together without the hassle of running from store to store with swatches of fabric, carpet, wallpaper and paint trying to match colors and wonder if they will look the same in their home.

She specializes in three products: draperies because they add impact and drama to a room; carpet because it provides the largest expanse of color and texture in a room; and wall covering which adds the pizzazz and reflects the homeowner's personality.

In addition, she carries soft-quilted cornices, lowered drapes, mini-blinds, woven woods and a new interior finish with a Teflon-E base made by DuPont. Decorating Den is the sole distributor of this paint. All products are fully guaranteed.

Bobbe just returned from Dallas where she attended another grueling week's worth of study, spending 10-14 hours a day in class. She is required to spend at least two weeks in classes every year to keep her clients informed on the newest ideas and trends. She is also taking a home-study course in interior design and hopes in a couple of years to get her A.S.I.D. (American Society of Interior Designers) license to be able to offer a complete designer's service while continuing to cater to the average homeowner on a budget.

Midterm report: Carter in Trouble

RICHARD MILLIMAN

It's midterm time, and the natural question is: How's President Carter doing?

By all signs I've seen, not very well, apparently. And time is running short for the President to get his act together; in less than a year, the voters will start deciding in the early primaries their choices for presidential nominations.

Short presidential term, wasn't it? Actually, I have no more inside information than anyone else who reads the newspapers, watches occasional television, and looks over a few magazines. There does seem to be a shortage of favorable Carter reviews, however. The other kind are a bit easier to find—although the big-time pundits don't seem to be waiting in line to analyze the Carter years, as they did for Ford and Nixon and most other presidents before. By itself, this fact is revealing.

Don Campbell, Gannett's Washington expert, recently wrote about Carter's current political status. His conclusion: Terrible. Campbell quotes several politicians around the country:

Iowa: "If the caucuses were held this month, Carter would be lucky to get the 28 percent he got last time."

Florida: "If Carter had to run in Florida today, he'd lose. It's an anybody but Carter feeling."

New Hampshire: "I haven't been contacted by anybody in the White House. I've been sitting up here three years waiting—and I think it's too late now."

And so it goes.

On substance, the report is not much better. The Wall Street Journal editorialized: "It has been an administration of multiple confusions, reflective in part of the multiple confusions of our times."

"Certainly Mr. Carter has not yet found a way, all his promises...not withstanding. The public...is not much interested in promises at this stage. After two years, it would like to see more substantial evidence of vigorous presidential leadership."

In another Carter article, the Wall Street Journal quoted several political experts on Carter's present dilemma. Some samples:

"Stability has to come from the top, and I'm not sure he can provide it..." "All I can see is the President

losing labor support over the last four or five months..." "He needs to convey a stronger sense there is some fire in his belly..." Carter is falling short in "Commanding the attention of the American people."

And so it goes from another source.

National columnist Jack Anderson is more direct in some of his comments. In a recent California speech, Anderson is quoted as saying that Mr. Carter is "a decent human being who wants to be a good president" but who also has two problems—"inexperience and incompetence." Continued Anderson:

"We elected a boy scout. A bright boy scout, but one who is still learning the facts. He is taking a cram course because he wants to be qualified at the end of the term. But he is not now."

And then there are some political critics. For example, former Sen. Eugene McCarthy—who was the instrument which knocked Lyndon Johnson out of the presidential box back in 1968—is bipartisan in his analysis. He recently told a California audience that the administrations of both President Ford and President Carter are incompetent—but that Carter's is worse. Of Carter's administration, he said:

"You can call it active incompetence, which distinguishes it from Ford's whose administration was passively incompetent. And active incompetence is a little more dangerous."

McCarthy also predicted Carter will lose if he runs again.

All in all, it's not an encouraging picture for Mr. Carter and his loyalists. The various polls of public opinion indicate that, too. Of course, public opinion on Mr. Carter is volatile, and can change at a moment's notice—which is probably because for most folks, opinion, thus subject to almost whimsical change.

Carter's biggest problem with the people, in my opinion, is that he's boring. His speeches will put you right to sleep, in English or in Spanish. The American people will forgive almost anything in a public figure—except boredom.

I think most American people want to like Mr. Carter, and still hope he will turn out all right. But for Mr. Carter, time is running shorter and shorter.

Editor's Mailbox

Crawford County Avalanche
Grayling, Mich. 49738

Dear Editor:
Spring has arrived, and with it the promise of things to come. My dog will not be able to greet the warm sunshine and the fresh smells of the earth, he was killed earlier this week.

I first saw him as a pup in a large litter of black and hungry Labrador retrievers. I was about to retire and make my home in the north country and wanted a companion for my later years. And what a companion he was, roaming the woods with me in the grouse and woodcock seasons, playing in the river at my door, and with the grandchildren in the doorway when they came to visit. I no longer hunt as I love and enjoy all living things. My dog had become the guardian of my homestead and my daily companion. It is said that a man's dog is his best friend; how true it was. Now, six years later have lost my best friend, killed by some misguided individual who may have felt some pride in his accomplishment.

I had turned him out for his usual morning walk, and when he did not return nor answer my call at breakfast time, I went in search of him. I found him, near my mail box on the highway, lying on the shoulder of the road. At first he appeared to have been struck by a car but on closer examination I found he had been shot thru the head, apparently at close range. I suspect he may have been called up close to the car and then killed.

I buried him on a knoll in my yard, overlooking the woods and river he loved. A part of me was buried with him; a man becomes quite attached to his dog after years of being together.

Perhaps God can forgive the coward who felt justified in killing my best friend. I can never forgive him. I can only hope that my loss will serve as a warning to others to do their utmost to protect their pets from those who have no use for them.

Sincerely,
Wm. C. McGowan

Red Cross Blood Bank

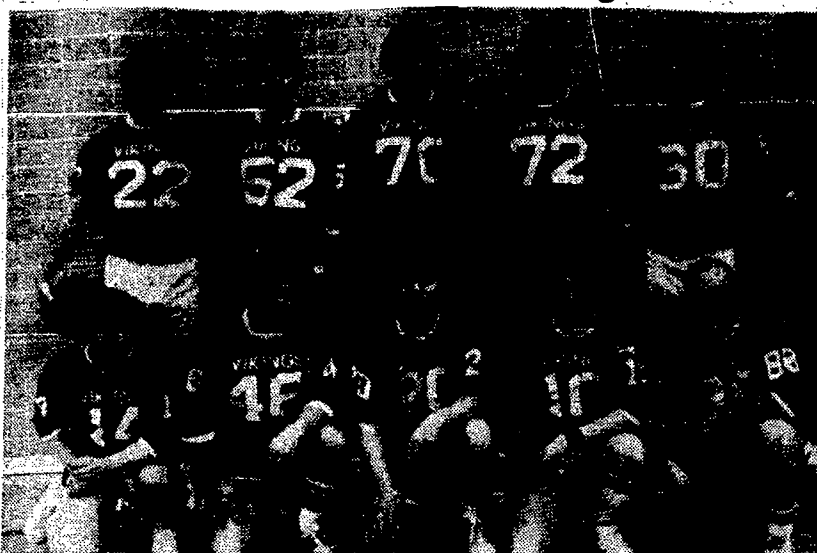

Again the Crawford Co. Chapter of the American Red Cross would like to thank the Citizens of Crawford County for their support on our Blood Bank of March 21, 1979.

After a slow start we ended the six hour clinic with 113 donors and 95 pints of blood.

We have another Blood Bank scheduled for May 16, 1979 at the Grayling High School when the public is invited from Noon to three o'clock, where we hope to bring our donations up to fulfill our quota for our fiscal year ending in June. With the generous support given by this community we hope to reach our goal.

Iron River Wins Guard Cage Crown

Grayling's National Guard Basketball team, which participated in the State finals here at Grayling high this past weekend, was eliminated by a Kalamazoo quintet who went on to finish in the runner-up position on Sunday. Kalamazoo outlasted Grayling, 68-53 Saturday afternoon. Pictured here representing Grayling include the following players: front row (left to right), Ed Moggo, Scott Hanson, Pat Murphy, Randy Sajdak, and Don Campbell, player-coach. Back row (left to right), Mike Thorne, Justin Potter, Ed Robinson, Bob Madsen and Greg Gohro. The tournament was won by Iron River, a U.P. team who traveled south and to take home the first-place trophy by beating Kalamazoo in a Sunday morning contest. (Joe Schrader photo)

Several months ago we had occasion to receive services from the doctors at the Family Practice Clinic, especially Dr. Waterfall, who delivered our daughter. Since her birth we have visited Dr. Waterfall for her scheduled examinations and a couple of unscheduled visits. After each appointment we were impressed with the care we received from Dr. Waterfall. His concern for our health and peace of mind were evident in the thoroughness of his examinations and the extra time and effort he took to explain the smallest detail thus alleviating our concerns. In our opinion he is a "wise, old fashioned doctor" for such a young physician. We felt fortunate to have his services available to us.

Now we have learned that Dr. Waterfall and his family are planning to leave our community this summer. We do not know what circumstances prompted this decision. We also do not know whether it is possible to help them change this decision. We do know that their leaving will be a tremendous loss to us as his patients. We will also miss them as neighbors. Dr. Waterfall and his wife, Ruth, have become assets to our entire community, not only because of Dr. Waterfall's practice, but because of their personal involvement in their church, school and neighborhood activities.

We feel everything possible should be done to encourage and assist if necessary to keep Dr. Waterfall's quality and dedicated medical practice in Grayling. Sincerely,
Gary & Irene Pettyjohn

We hereby bestow upon Paul Juntilla "Golf Number One for 1979!" On a balmy day, Friday, March 23, he was the first golfer of the season, beating out McLaughlin and co. Holes one, two, three, six and nine are clear of snow and were playable by Saturday morning, but a cool rain and light snow damped things a bit.

Tom and Sandy were at the club cleaning up the winter's grime and Tom and Ken have been clearing greens and removing the snow drift from the front gate. Spring has come earlier, as a year ago, March 24, a party of golfers had to brave a foot of snow to play one hole.

Ladies-watch for the Wednesday morning organizational meeting date!

"Surroundings count — but not much. And where there is love, surroundings do not count at all."

My grandmother told me this. But for the longest time I did not understand what she meant. I thought people were a product of their environment. I thought people grew according to their circumstances: business people became merchants; religious people became clergymen; concerned people became firemen and nurses.

Now and again, I still pass slums; children playing in filthy alleys and on broken sidewalks. And I remember my questions. Where do the children of alleys sleep? How are they warmed? And how do they grow in surroundings that strangle clean air, comfort and beauty?

Grandmother could never answer all my questions. She would just smile and tell me, "Jesus Christ was born in a stable and He was the Savior of all mankind."

I understand now. Surroundings do not count at all — not where there is love. And love is found in church.

I want to write this letter in regards to the District Court action being publicized weekly in the paper.

I guess it should be public knowledge of who the criminals in town are—that's why I didn't ask the Avalanche to withdraw my son's name from the District Court action.

I'm not really ashamed of what he did. I'm proud that he is so honest that he couldn't figure out how to wriggle out of taking a gallon of milk where he worked. I also hope that it sets an example to those people who have, for years, taken things from where they worked because they didn't think of it as larceny. I'm not excusing him, it doesn't make it right to take something because you see others doing it.

But the sad part of the whole thing are the tongue wagers in the town. I know who you are because things get back when you hear a couple of things, you know that there is more that you don't hear. The funny part of it is that the people that tear down and criticize are the very people that have done shady things in one way or the other that never got turned in, or would rather the loudest if it was their kid and try to get them out of it.

There are people who wouldn't steal a penny, but the things that go on in their home could be reported and be public knowledge. They may think they're lucky and they may be the ones to point a finger, but it's the people who know a person for what they really are, that counts.

People who never do anything wrong are always the kindest. It's ironic that a person can't get away with a misdemeanor but a lot of people get away with murder or close to it.

The Obstacle Course

Miss Eaton started an obstacle course on March 12, 1979, in our Grayling Elementary School and it ended on March 23, 1979.

At first we had to lay on the scooter board, then we crawled through a hoop, we ran through a box with a triangle cut out of it, and we had to run through staggered hoops like football players do with tires. Pictured above is Mike McNamara doing this. Next we took a ball and a broom and pushed the ball with the broom through a zig-zag pattern of orange highway cones we hit the ball very hard until it went past a green line that was on the floor, we could drop the broom and run again, then we ran through another box but this one had a square cut out of it, we crawled through a hockey net, ran to a stack of mats, and put one of our feet on the mats and jumped the rest of the way. After that we crawled through another hoop, walked on a black line and tried not to touch the white part of the floor, touched an "F" that was on the floor and it was over.

And all that time Miss Eaton, our gym teacher, was timing us. And this included all of our school, K-5.

The winning score was 24 seconds or less. And if anybody tied we would have a tie-breaker. There were a few tiebreakers and sometimes three or four people would tie.

We had a fun time, and enjoyed it very much.

ABWA Meet

The Grayling Chapter of the American Business Women's Association held its Spring Enrollment Event at the Chief Shoppenagong Hotel Mar. 20. President Pauline Petrosky welcomed prospective members, saying "It is great to be part of a group which promotes education for deserving area women by providing scholarships. Belonging to ABWA also fosters friendships with other business women." In keeping with the 'Magic Touch' theme a comical skit was presented by Norma Naour and Sandy Fleming.

Nancy Cohoon, shown above, Certified Handwriting Analyst, gave an interesting talk on graphoanalysis. Mrs. Cohoon said "There are 220 traits in a sample of handwriting, character and personality can be determined." Graphoanalysis is a new field, as opposed to graphology, and is being used in personnel placement and in the fields of counseling, medicine, criminology and law. Vocational speaker for the evening was Sharon Klingner. Sharon attended Macomb Community College and worked for Carboly Division of General Electric and at the GM Tech Center in Warren. After moving to Grayling, she obtained employment with Dr. Hoffman where her diversified duties include glaucoma testing, assistance in choosing and fitting glasses, frames and assistance in the lab.

March birthdays were celebrated by Joyce Pickell, Pam Spencer and Alice Walls. A carnation bowl was presented to Connie Swander who transferred her membership from the Oaks Chapter in Jackson.

Coming soon—"Boss Night", April 24th at the Grayling House. A wine tasting presentation will be put on by Marty VanDeVen of Krumeri Beverage Co. of Grayling. Reservations must be pre-paid by April 10th.
